"A" note from the president:

Hello Everyone,

We started March off with a great tour of Skiff Boats in Plain City. Old style quality craftsmanship was demonstrated to the group by the folks at Skiff, followed by too much to eat at Der Dutchman. The March Tech Meet was held at Rick's Ford Garage. Removing the Model A gas tank was our tech topic for the evening. Indeed the tank is out and on it's way for repair. I hope Rick has fun reinstalling it!

April appears to be a busy month. Events include a club dinner, 1st Saturday breakfast, tour of the OSU Horseshoe and two Spring Tuneups at John Moore's and my place. Be sure to refer to the attached Club Calendar for times and dates.

A highlight at the upcoming May Tech Meet will be a special Ladies event planned by Jackie Moore. While the guys meet in the barn, the ladies are invited to join Jackie in the house for a salad supper. Ladies, please bring a salad to share. Beverages and dessert will be served.

On another note, if you haven't sent your dues into Jaci Rohner or Ellis Kauffman, please do. We need to get our 2014 Roster printed and finish the Club Budget for this year. Thanks to all those who are current.

Believe it or not, Spring is on the way. Let's get our Model A's tuned up and ready to go this touring season. We really have some neat tours and activities planned for every member and their family.

Ladies Corner

Did you know that the Model "A" Ford was heavily marketed as a car for women? It was intended to appeal to the desire of ladies to become more independent. Yet, few of the ladies of the Scioto A's drive.

Are you just along for the ride in the hobby of your partner? Well, we want to make it your hobby too. We have planned some activities, including a seminar, to get you more involved in the Scioto Model A's.

The "Ladies Driving Seminar" will be held on June 7th (rain date June 21) _____. Taught by ladies, we hope it will help you understand that the "A" is not difficult to drive. You will also get hands on time behind the wheel of your family "A" in a large, deserted commercial lot. President Dan has promised to "ensure the cooperation of the men."

Event number two will be at a later date. A manifold cooking tour. Yes, you can cook all kinds of tasty things on your Model A engine. You'll learn about that at the seminar also.

Why should you know how to drive the "A"?

1. It's fun.
2. If something happens to the driver, you can get home.
3. If you are tired of waiting for "Him", you can say "Remember I have keys and I know how to drive."

Hope to see you at the seminar

Scioto Spotlight – Homer Green

This month's "Member Spotlight" is on Homer Green. Homer and Marie joined the Scioto Model A Club in 1965. Homer has owned many collectible cars over the years, including at least six Model A's. Homer's Model A's have included Roadsters, Todors and a couple of Coupes (one of which he now drives). He purchased his first Model A, a Coupe, in 1955.

Homer was employed at Schodorf Truck Body for 37 and a half years and is a veteran of the United States Army. For many years, Homer and a friend used to do stainless steel work for collectible cars. Some of our members have utilized Homer's expertise in this area over the years.

Thanks Homer for your service to our country and your passion for Henry's Baby and dedication to the Club!

The same smile
