The Official Publication of the Scioto Model "A" Ford Club

MARC Central Ohio Region
Columbus, Ohio

September 2019

Cover Photo

This month's cover photo was taken back in 2016 at Commercial Point. This was the first time that our club attended the Karting Classic. It features a few of our Model "A"s circling the track.

The Chief's Corner

Hello Everyone!

Now that September is here, hopefully the weather will cool down, the kids and grandkids are back in school and things will slow down a little bit. Over the past three months, we have had a very busy touring schedule. But just because things are slowing down, it doesn't mean we are done. We still have a couple of great tours coming up this year. One of these tours will be this month. John Baker will be leading us over to Dayton, Ohio to the America's Packard Museum. It is located in a refurbished Packard dealership building. They have over fifty cars on display and the museum is rated as one of the top ten auto museums in the country. I know that they are not Fords, but we all can appreciate beautiful, restored automobiles. Next month, Steve Rohner will be leading us on a covered bridge tour throughout Union County. With a little bit of luck, the leaves should be starting to turn and provide a great backdrop for some pictures of our Model "A"s rolling through some covered bridges. And last, but not least, is the annual Veteran's Day Parade that is held in downtown Columbus. This is always a huge parade that pays respect to all of our country's heroes. Over the past few years, even though this is a Friday event, our club has had a great turnout for the parade. Let's keep this tradition going.

I would also like to take a moment and thank all of our members who donated items to the club to be auctioned off last month at our yearly fundraiser. Because of you, our club was able to add over \$300 to our treasury in addition to donating \$150 to the Columbus Fire Museum. Of course, this would not have been possible without those of you who purchased those donated items as well. I would also like to thank everyone who carried in a special treat to be shared on our dessert bar. It was a fun evening with some delicious treats at a great location. It shows once again that Model "A" people are some of the best people around. Give yourselves a pat on the back, you deserve it!

Allan

Our Next Meeting

DATE: September 4th, 2019

TIME: 7:00 pm

PLACE: Big Walnut Grill

LOCATION: 175 State Route 3
Sunbury, Ohio

TOPIC: North Side Dinner
Meeting

DIRECTIONS:

1. Take I-270 on the north side to I-71.
2. Take I-71 North to Exit 131, Route 36.
3. Take Route 36 East to Sunbury.
4. In Sunbury, turn right (south) onto State Route 3.
5. The Big Walnut Grill is on your right beside Kroger's.

America's *Packard* Museum

On September 21st, John Baker will be leading the club on a tour over to Dayton, Ohio to the America's Packard Museum. We will depart at 10:00 am from the Kroger parking lot located at 5800 West Broad Street in Columbus. Admission to the museum is \$6.00 for adults and \$5.00 for seniors. America's Packard Museum was founded in 1992 by Dayton attorney and long-time car collector Bob Signom. Located in an original Packard dealership building constructed in 1917, the museum has officially taken the name of the original dealership - The Citizens Motorcar Company - but has become known as "America's Packard Museum". Car Collector

magazine named the museum one of the "Top Ten" Auto Museums in The United States. The museum features over 50 automobiles on display in the restored Art Deco showroom, service department and pavilion. In addition, significant artifacts from the Packard Motorcar Company are on display. This is sure to be a tour packed full of beautiful cars that you won't want to miss.

COMMERCIAL POINT *Karting Classic*

On August 3rd, the Scioto Model "A" Club made their yearly trip down to Commercial Point to enjoy the Karting Classic professional go-kart races. There were eight Model "A"s and one Model "T" in attendance. The members got to see some great racing action with go-karts approaching speeds of 85 mph while winding their way around the village streets. While there, the members got to take their cars onto the race track and make a lap around the course throughout the village. One of our members, Mike McBride, decided to take an extra lap around the track. He said that he was lost! It was a good time for all.

Dan Bickley
SECRETARY

Highlights of the August Meeting

Thank you Steve Rohner for taking notes in my absence once again!

The meeting was called to order by Allan Goldhardt, with a special thanks to Bill Hall and the Columbus Fire Museum. Allan presented a check for \$150 from the Scioto Model "A" Ford Club to the Columbus Fire Museum.

Jaci Rohner presented the updated Club financial report to the group.

In terms of Old Business, the following items were discussed:

- A. The Port Columbus 90th Anniversary Celebration on July 13, included 6 Model A's.
- B. Silent Movie Nights included 3 Model A's on Thursday and 2 Model A's on Friday.
- C. Roscoe Village Canal Boat Ride on July 20th included 10 people and 3 Model A's.
- D. Commercial Point Go Kart Races included 8 Model A's and 1 Model "T".
- E. No one present at the meeting had attended the MARC National Meet.

New Business for the evening covered the following:

- A. Armstrong Air and Space Museum Tour scheduled for Saturday, August 17th.
- B. America's Packard Museum Tour scheduled for Saturday, September 21st. Meet at the Kroger parking lot located at 5800 West Broad Street for a 10:00 departure.
- C. Steve Rohner covered the upcoming Covered Bridge Tour scheduled for Saturday, October 19th. The tour will be departing from the Der Dutchman restaurant in Plain City. Departure time will be announced later.

Jaci Rohner covered the Sunshine Report.

Our next meeting will be the North Side Dinner Meeting on Wednesday, September 4th. Location is the Big Walnut Grill, located at 175 State Route 3 (in the Kroger shopping center), Sunbury. Meeting begins at 7:00PM. Members will order off the menu.

This was another great turnout for the Club Auction. Many thanks go out to our favorite auctioneer, Daric Galden, and his esteemed helper Monroe Harbage. As you know, this is the Club's main fundraiser for the year. After giving a donation to the Columbus Fire Museum, the Club profited over \$300 for the evening. Thanks to all who donated items to the auction, and, thanks to all who brought the delicious desserts!

Tolles Third Annual Car & Craft Show

Date: Saturday, October 5th

Time: 8:00 am – 2:00 pm

Location: Tolles Career & Technical Center
7877 US Highway 42 South
Plain City, Ohio

All proceeds from the event will raise funds to support students and their activities in career-technical student organizations (CTSOs), including FFA, SkillsUSA, Business Professionals of America (BPA), HOSA and FCCLA.

The 2019 Scioto Model "A" Ford Club Points Race is in the final quarter. All club members are automatically entered into the race. You earn points by attending meetings and tours. Additional points can be earned by driving your Model "A" to our meetings, leading a tour, hosting a meeting, doing a presentation at a meeting, providing refreshments at an event or signing up a new member. If you have collected 16 points by the end of the race, you will receive a FREE Membership next year. If you notice any mistakes in your points total, please let Dan Bickley know immediately. Some of you are very close to getting a free membership next year, so get out there and earn those points!

Armstrong Air & Space Museum

On the 17th of last month, Clark Garn and Steve Rohner led the club on our August tour. We had eight Model "A"s and 12 people meet at the Der Dutchman in Plain City. We pulled out of there around 9:00 and headed up to Wapakoneta, Ohio to the Armstrong Air & Space Museum. This was our longest trip of the season so far. While there, we got to see some early space equipment, a short movie about the Apollo 11 space flight and an actual rock from the surface of the moon. After touring the museum, we went across the street to the Lucky Steer for a very good lunch. Fortunately, we were able to make the trip with no mishaps, so Ken Szakelyhidi gets to keep Henrietta for now! A big "Thank You" goes out to Clark and Steve for putting together this enjoyable and fun tour.

The Model "A"s lined up and ready to go at the Der Dutchman.

Jim Jones is happy to be at the Space Museum!

At the left is a picture of the "Gang" posing with a sculpture of Neil Armstrong as they prepare to enter the Armstrong Air & Space Museum.

CLUB MEMBERS IN THE NEWS

He's All Tied Up In Knots

For each 4-H project category, the Ohio State University Extension publishes a project book. These how-to guides go out to youths across the state and, in some cases, are picked up for use by Extension offices in other states.

Madison County resident Monroe Harbage helped to author one such book, "Not Just Knots", a guide to tying all sorts of knots. Harbage has served as a knots judge at the Ohio State Fair for 15 years. He also is Madison County's 4-H key leader for industrial arts projects.

"There are three of us who have served as state judges for years and years, and we never liked the knot book we had. We thought we could do better", Harbage said.

Three years ago, the trio helped OSU Extension to revamp the book to include enough educational material to last 4-Hers through two or three project seasons, instead of one, like the old book. Another major change was the inclusion of illustrations that show the steps for tying different knot types.

"For the project, kids have to tie 10 knots. The old book only had five in it, and kids had to go find information on the other five on their own", Harbage said.

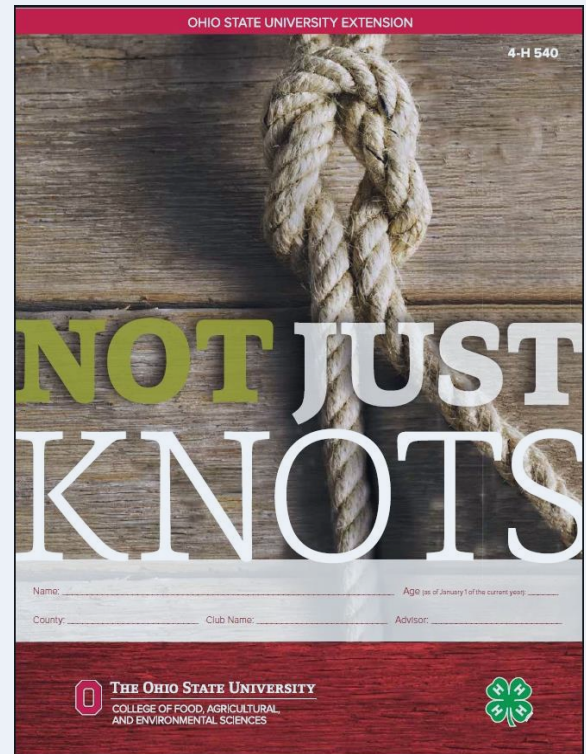

The book shows users practical applications, like surgeon's knots (good for stitches), square knots (good for tying shoes), and halter knots (good for tying cattle to fences). It also includes decorative applications such as knots used in macramé.

"We recommend practical knots to start out", Harbage said. "If a 4-Her comes back to the project a second year, we encourage them to try macramé, something beyond just rope knots."

At the state fair, exhibitors can choose the 10 knots they tie for competition from among 175 different knots displayed on a demonstration board.

"With 10 knots, you're just skimming the surface of possibilities", Harbage said.

Ohio's revamped knots project book has garnered attention across state lines. Extension offices throughout the United States use it in their 4-H programs. Harbage said it is not uncommon for states to share materials in this way.

Madison County resident Monroe Harbage lent his expertise as a state knots judge to the overhaul of the Ohio State University Extension's knots 4-H project book. The new book is used by 4-Hers throughout Ohio and in other states across the nation.

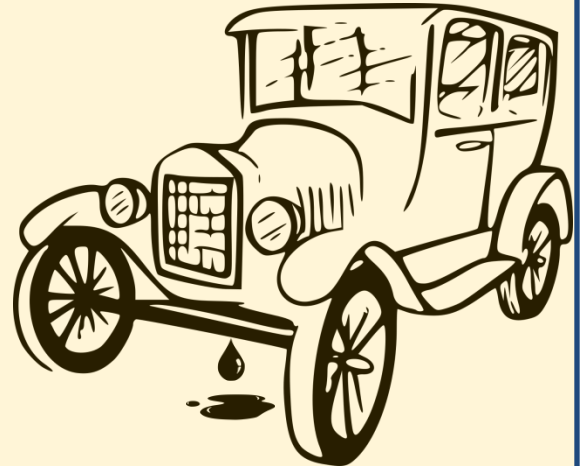

BACKYARD TECH TIP

Sealing threads to stop the drip over the years I have discovered that a very light application of a non-hardening sealer to the threads of things like the fuel shut-off valve, the little plug on the base of the carburetor, the fuel line going into the carburetor and the fuel filter (apply to the ferrule, not the threads), and the oil drain plug can stop the annoying drips that seem to come off of each of them. Any time you have a bolt going into a part of the engine where oil or water is on the other side, put a little non-hardening sealer on the threads. Even places with a gasket will benefit from a light coating of sealant on the gasket surfaces.

For years I have used "Permatex Form-a-Gasket #2 (non-hardening sealer)" for this purpose. This stuff is not a silicon "gasket in a tube". It is non-hardening, it stays pliable, so it comes apart at a later time without messing everything up. Don't use their #1 sealant; it dries up like super glue.

Jim Cannon
MAFCA Technical Director

"A" Word on Fashion

Two of the most iconic fashions of the 1920's are the cloche hat and the flapper dress. The cloche hat of the 1920s evolved from the wider-brimmed hats of the decade before, and continued to evolve up until the 1930s and beyond. The basic description of the cloche hat is that it is a very snug-fit hat that was often worn tilted, covering the forehead, yet allowing room for vision. The hair

was often cut short and styled flat to fit under these types of hats. Cloche type hats often covered the ears as well, and even sometimes the ends of women's short haircuts of the time. Often the flapper style clothing and the cloche hat were worn together, especially during the latter half of the Decade.

Presenting
The
FLAPPER of the **MONTH**

This month's "Flapper of the Month" features Bebe Daniels. Bebe started her movie career with the "Selig Polyscope Company," and later moved to the "Hal Roach's studios" in 1915 at the age of fourteen. During her stay at Roach's studio she made over 200 short subject silent films. By 1919, she was working at the Paramount Studios. By 1924, she was playing opposite Rudolph Valentino. Bebe married Ben Lyons in 1930 and they retired to England only to star in their own show for BBC "Life with the Lyons" in the 50's. On March 16, 1971, Daniels died of a cerebral hemorrhage in London at the age of 70.
