Hello Everyone!

I'm excited for the June Tech Meeting! Daric Galden is going to talk about a new improved block that has come out. He's going to be putting it in his car. There are a couple schedule changes so please check your calendar for updates.

Thanks to Steve and Bill for a wonderful tour to the Portsmouth Flood Wall. We had a great time!

Stay safe and I'll see you soon!

Clark

There is one rule for the industrialist and that is: make the best quality goods possible at the lowest cost possible, paying the highest wages possible.

Picnic with the Props

On June 25th, Pat & Dick Liston will be leading us on our “Picnic with the Props” tour. Please note that this is a FRIDAY tour. We will be heading up to Wynkoop Airfield in Mount Vernon, Ohio to visit the National Waco Club as they celebrate their 62nd Club Reunion. Waco planes will be flying in from across the country for this four day event. Two other Model “A” clubs and two Model “T” clubs have also been invited. This should make for a wonderful display of antique autos and airplanes. We will meet in front of the Courtyard by Marriott located at 5211 Forest Drive in New Albany, Ohio. We will be departing promptly at 9:00 am. You will want to be sure and bring a chair to sit on. Food and ice cream will be available at the airfield. This should be a fun filled day with great opportunities for some excellent pictures. Since there will be four other clubs present, let’s have a good turn out and make our club well represented and proud!

Our Next

Meeting:

DATE: June 2nd, 2021
TIME: 7:00 pm
PLACE: Rick Lindner’s Ford Garage
LOCATION: 259 East Tompkins
Columbus, Ohio
TOPIC: “Newly Designed Ford
Model “A” Block”

DIRECTIONS:

1. Take I-71 to Exit 112.
2. Go West on Hudson Street to Summit Street.
3. Go South on Summit Street to Thompkins Street.
4. Go West on Thompkins Street.
5. Rick Lindner’s Ford Garage is a white building on the South side of the street.
6. You may park around the garage, on the street or in the school lot across from the garage.

FROM THE DESK OF

Pat Liston

SECRETARY

Secretary's Report for May

We had a great meeting on May 5, even if it was a little colder than we would have liked. We had four Model A's and 14 members attend.

President Garn thanked everyone for coming. He then proceeded to pass out the mileage awards for 2020. They were as follows:

Clark Garn	1,000 miles	Tom Wickersham	2,108 miles
Jim Jones	1,017 miles	Rick Lindner	2,188 miles
Steve Rohner	1,020 miles	William Minor	2,392 miles
Spencer Creek	1,318 miles		

He then spoke about our upcoming tour on May 22nd. We will be heading down to Portsmouth, Ohio to view the Floodwall Murals. This tour will be led by Steve & Jaci Rohner and Bill & Winnie Minor.

Our next Tech Meeting will be held on June 2nd at 7:00 p.m. We will be meeting at Rick Lindner's Ford Garage located at 259 East Tompkins Street in Columbus, Ohio. Daric Galden will be speaking about the new Model "A" Ford engine block being manufactured.

We then discussed the upcoming tour on June 25th to the Waco Reunion Fly-in. The event is a go for sure, and they plan on having a food vendor and an ice cream vendor at the event. We will be meeting at 9:00 a.m. at the Service Road in front of the Courtyard by Marriott Hotel. The hotel is located behind the Dairy Queen on Route 62 in New Albany. The hotel address is 5211 Forest Drive, New Albany, Ohio. A map will be passed out at the June Tech Meeting for those not familiar with the area.

Steve Rohner then gave a presentation on touring. He spoke about touring etiquette and how you should always be aware of the car directly behind you. He reminded everyone to slow down to allow the cars behind you to catch up due to delays at red lights and other cars getting in our line-up. He said it is your responsibility to see that the car behind you makes the correct turns and keeps on track. Thank you Steve for these reminders. He then spoke about some of the things that are good to bring along when on a tour. This was very educational. While each of us cannot carry everything on the list, if each person would bring one or two of the items, it would ensure no breakdown would leave anyone stranded. If you would like a copy of the list, just let me know. I would be happy to send it as an attachment in a blast email to all interested.

Be sure to check the calendar in this newsletter. I look forward to seeing you at our upcoming events.

East Side Tune-Up Day

Last month, we held our second tune-up day of the year. This was our annual East Side Tune-Up Day. We got together at John Baker's garage on the east side of Columbus. There were around seven Model "A"s present. We did lube jobs, adjusted timing, checked toe-in, and even did an oil change. It was a beautiful day and a lot of fun. A big thank you goes out to John Baker for inviting us into his home and hosting this event for the club.

24TH ANNUAL MODEL "A" DAY

June 6, 2021

9:00 a.m. – 2:00 p.m.

Sharon, Wisconsin

Come join the Rock-Ford A's and the Sharon Main Street Association for the Midwest's largest gathering of Model A's! This celebration of "Henry's Lady" traditionally hosts hundreds of Model A's in every body style and color from at least 4 surrounding states. Free admission for this all-day event which runs from 9 am to 2 pm. Entertainment includes time-era skits, a jazz band, dance performances, and a vintage fashion show. Food choices include a pig roast, ice cream social, "running board lunches", bake sale, and specialty food vendors. There will be a swap meet, crafters, novelty and antique shops, a 50/50 raffle, and a raffle for a Model A part. Something for everyone! ***Stop on your way to the MARC National Meet in Oshkosh!***

May Club Meeting

On May 5th, the Scioto Model "A" Ford Club held the first meeting of 2021. This was the first membership meeting since November 7th of last year. Six months without a club meeting has seemed like an eternity. The meeting was held outdoors at a shelter house located at Grigg's Reservoir. Although it was a little chilly, it was a nice turn-out. It was also good to see that four members drove their Model "A"s to the meeting. Hopefully, things can start getting back to normal and we can keep meeting on a monthly basis. Our next Tech Meet will be held on June 2nd at 7:00 p.m. at Rick Lindner's Ford Garage. His garage is located at 259 East Tompkins Street in Columbus, Ohio.

Historical Buildings Will Be Open to the Public

PORTSMOUTH FLOODWALL MURAL TOUR

On the 22nd of last month, the Scioto Model "A" Ford Club took its first tour of the 2021 touring season. Steve Rohner led the group down to Portsmouth, Ohio to view the murals painted on the floodwall. Although we didn't have a large group, we did have a beautiful day and a lot of fun. Six Model "A"s and a couple of modern cars made the trek down to the banks of the Ohio River. There were around twelve club members and a few extra guests along for the trip. After looking at the murals, we headed over to a local park for a picnic lunch. After the picnic, we split up into two groups. Three of the "A"s headed towards home and the other three hung around Portsmouth to check out the local brewery. We had one incident on the way down when our lead Model "A" quit running. After a quick diagnosis and the installation of a new condenser, we were back on the road. Henrietta, the club's rubber chicken, gets to ride along with whoever is the last member to break down while on a tour. So for now, she will enjoy riding along with Steve & Jaci Rohner. A big thank you goes out to Steve & Jackie for putting together such a nice tour.

BACKYARD TECH TIP

SPARE CONDENSER

A tip for an emergency condenser is to buy a good condenser that has a “foot” on it and a “pig tail” about 3” long. Loosen up one of the screws that hold the coil to the firewall, slip the “foot” of the condenser between the coil bracket and firewall and then tighten the screw down again making sure there is good contact between all units. This gives a good ground connection. Leave the “pig tail” hang free for emergency use. Should your condenser located in the “A” distributor burn out, just loosen the coil terminal nut, attach the “pig tail” clip, tighten terminal nut again and be merrily on your way. If you should wish to use this modification, the condenser will serve for years as it is located away from intense heat of the motor. Heat is the worst enemy of the stock Model “A” Ford condenser.

Bill Brex
Penn Ohio Model “A” Club

“A” Word on Fashion

Knickerbockers:

Amy Johnson was a pioneering English pilot who was the first woman to fly solo from London to Australia. She borrowed the knickerbockers, or jodhpurs trouser fashion, from men as a comfortable and practical form of dress for female aviators of the era. The avant-garde style of knickerbockers, loose-fitting breeches gathered at the knee, was adopted as a fashion statement by women during the 1920's, often accompanied by a shirt and tie.

american-historama.org

Presenting
The
FLAPPER of the MONTH

This month we feature Vilma Bánky. Bánky was born in 1901 in Austria-Hungary. After graduation from secondary school, she took courses to work as a stenographer, but was offered a role in a film. Her first film appearance was in Germany in 1919. On a trip to Budapest in 1925, Hollywood film producer Samuel Goldwyn discovered and signed her to a contract. She appeared opposite silent film star Rudolph Valentino in 1925 and 1926. In the mid and late 1920s, she was Goldwyn's biggest money maker. She married actor Rod La Rocque in 1927. It is commonly believed that her thick Hungarian accent led, with the advent of sound, to her career being cut short; however, she began losing interest in films and wanted to settle down with La Rocque and simply be his wife. By 1928, she had begun announcing her intention to retire within a few years. Although the couple never had any children themselves, together they formed the Banky-La Rocque Foundation to educate children. Bánky and La Rocque remained married until his death in 1969. Bánky died in 1991 in Los Angeles, California from cardiopulmonary failure at the age of 90. When she died, she left a sizable estate.

THE END
