## Cover Photo

This month's cover photo features some of our member's cars. It was taken at The Meadows Restaurant on Route 40. We stopped there for lunch last month while on our tour of the Wescott House.

# The Chief's Corner

*Hello Everyone!*

This year's touring season and tech meetings have been fantastic, each with their own flare and personality! It never ceases to amaze me of all of the wonderful places that Ohio has to offer for a Saturday drive. We have one more tour to go and then we will sadly wrap it up. A huge thank you to those who have stepped up by hosting and arranging our tours for this year, it is SO appreciated!

September was busy, starting with the tech meeting at Darics. Thank you Daric and Rick for that. Then we had the tour to Springfield, which was great. Thank you to everyone who joined us! Our neighbor, who doesn't pay much attention to our cars, came over and commented to us of what a sight it was to see so many beautiful cars go by.

Now, on to the month of October. On the 1<sup>st</sup>, there will be a cookout at our house. We will also have the nomination of officers for next year. That will be followed by discussion about where our next tour will be. At the November meeting, we will elect our officers for 2023.

So as fall approaches, get your cars out for their "drives" before the winter months have us grounded, and hopefully we'll see you on the road!

*Stay cool and drive safe!*

*Ahooga!*

*Jaci*

## 2022 Officers

President: Jaci Rohner  
Vice President: Wayne Davis  
Treasurer: Spencer cheek  
Secretary: Pat Liston

## 2022 Trustees

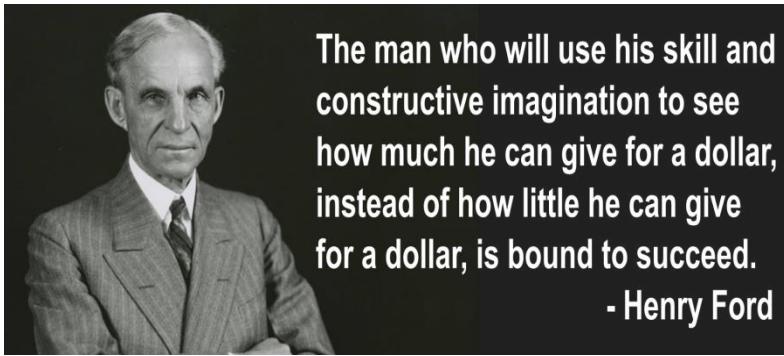

1<sup>st</sup> Year: Clark Garn  
1<sup>st</sup> Year: Chip Stout  
2<sup>nd</sup> Year: Harry Spieker  
2<sup>nd</sup> Year: Daric Galden

## 2022 Directors

Technical Director: Rick Lindner  
Regional Director: Steve Rohner  
Sunshine Director: Kathy Bickley  
Newsletter Editor: Allan D. Goldhardt

## Final Tour of 2022!

### SLATE RUN

*Living Historical Farm*

## Our Next Meeting

**DATE:** October 1<sup>st</sup>, 2022  
**TIME:** 12:00 Noon  
**PLACE:** Steve Rohner's Garage  
**LOCATION:** 7083 St. Rt. 142 SE  
 West Jefferson, Ohio  
**TOPIC:** Nominations for Officers

### **DIRECTIONS:**

1. Take I-270 to the west side.
2. Get off at Exit 7 – Route 40 (West Broad Street).
3. Go west on Route 40 for 8 miles to Route 142 in West Jefferson.
4. Take Route 142 south for about 2 miles.
5. Steve & Jaci's place is on the left hand side.

### **Additional Information:**

This is our annual cookout & potluck. Be sure and bring your own chair to sit on. Steve & Jaci will be providing hot dogs, condiments, and beverages. Be sure to bring a side dish to share with everyone.

Our final tour for 2022 will be held on Saturday, October 22<sup>nd</sup>. We will be visiting two locations. We will first visit the Slate Run Living Historical Farm, located outside of Canal Winchester. This will be a self-guided tour that will allow you to witness farm work and family life of the 1880's. We will learn how the farm family carried out their daily chores and worked hard to raise numerous livestock and crops. They still prepare food on a wood burning cook stove, make clothes on the treadle sewing machine and light the home with kerosene lamps. There is a bit of walking involved to see the farm, but there are some picnic tables next to the parking lot and some benches at the farmhouse. The timeframe is about 1 hour for this tour. Our next stop will be the historical Wagnalls Memorial Library in Lithopolis. A one hour guided tour will be provided by Carol Gaal who portrays Mable Wagnalls. This library was dedicated in 1925 by Miss Mable Wagnalls in honor of her parents Adam and Anna Wagnalls, who were born in log cabins in Lithopolis. This library was once called "The finest Tudor-Gothic structure in America". After the tour, we will be heading to lunch and making a stop for ice cream. A starting time and meeting place has not yet been determined, so watch your email for additional information. This should be a great tour to finish off the 2022 season!

## Secretary's Report for September

Our meeting on September 7<sup>th</sup> at the Henry Street Garage was interesting. President Jaci Rohner thanked Howard and Judy Turner for hosting last month's Tech Meeting and Harry Spieker for leading us on the tour to the Airstream Factory that everyone enjoyed. The weather was good, the restaurant we stopped at had great food and of course the ice cream later was worth the ride.

She then thanked Daric Galden for hosting our September meeting and providing pizza & drinks. Jaci said our next meeting will be October 1<sup>st</sup> in her backyard in West Jefferson. We will hold nominations for the 2023 officers. It will be a picnic, so please bring something to share. She then introduced, Jennifer Pollock and her father, who came to visit our meeting and ask questions about our Model A's. They seemed to have gotten the information they were looking for and enjoyed themselves at the same time.

Treasurer Spencer Cheek gave a report. We have not had a lot of activity so there was not much of a change from last month's report.

Secretary Pat Liston explained that all the minutes for last month's meeting were in the newsletter that was just received, so she was not going to repeat them. She also said there was a cake this month for the birthdays in September and anyone from August that may be attending the meeting.

There was no Sunshine report.

President Rohner spoke about the Veteran's Day Parade venue being changed this year to Delaware, Ohio. She explained that Steve will pass out registration forms to those interested in participating and said he will have them at upcoming events and meetings. She then discussed the September 17<sup>th</sup> tour to the Westcott House, near Springfield. We will meet at the Rohner's and leave at 9:30 a.m. Jaci is still working out the details of our October tour.

The meeting was turned over to Daric Galden who did a fantastic presentation explaining the new Burtz engine. There was a request to hear the engine run, so Daric backed the car out of the garage and started the engine. The sound was exceptionally smooth. Everyone gathered around the car and asked many questions. Daric answered all of them. Thank you Daric for all your helpful information.

On September 17<sup>th</sup> we met at the Rohner's house for coffee and doughnuts before leaving to tour the Wescott House, a Frank Lloyd Wright's creation. A lovely, early 1900 home that was way beyond homes of its time. It had 6 bedrooms (two were for the maids), a library room, sitting room, and a dining room. It also was one of the first houses with a garage. Everything, including building materials, furniture, drapes and rugs were all creations of Frank Lloyd Wright. It had a Japanese influence because of the love that Frank Lloyd Wright had with their culture and Japanese architecture. After the tour, we had a very nice lunch at the Meadowview Restaurant. There were about 18 of us. After lunch we drove over to the Red Brick Tavern, which was just a short ride down the road. Rick Lindner told us about it being restored, talked to those restoring it, and got permission for us to visit and see all they had done. It has a long way to go. Some of the members had been there before it had gotten rundown and were glad to see it coming back to life again. Then as we headed home, we stopped at the Dairy Queen for our ice cream run. Everyone had a great time. Thank You Jaci and Steve for another Great Tour.

Please see the calendar in this newsletter for more to come.

*Have a Great Day!*

## VETERANS DAY PARADE

This year, the Scioto Model "A" Ford Club is doing something a little different for the Veterans Day Parade. Our club will be participating in the Delaware Veterans Day Parade instead of the usual Columbus parade. Also, the club will not be doing dinner after the parade due to the time of the event. The Delaware parade will be held on Sunday, November 6<sup>th</sup> at 3:00 p.m. We will line up at the Delaware County Fairgrounds at 2:00 p.m. The fairgrounds are located at 236 Pennsylvania Avenue in Delaware, Ohio. Anyone wishing to participate in the parade must pre-register in advance. You can get a pre-registration form from Steve Rohner at one of our club events and mail it in or you can pre-register online at:

[www.DelawareOhVeteransParade.com](http://www.DelawareOhVeteransParade.com)

Please let Steve Rohner know if you are planning to attend this event as he is trying to get a head count. Also, if you have any questions, feel free to give Steve a call at (614) 579-3803.

Make plans to join us in Delaware on November 6<sup>th</sup> as our club will proudly honor the service of our veteran's and salute those currently serving in the military.

FRANK LLOYD WRIGHT'S

# Westcott House

On September 17<sup>th</sup>, Steve & Jaci Rohner led the Scioto Model "A" Ford Club to Springfield, Ohio to tour one of the few houses designed by the famous architect, Frank Lloyd Wright. We met at Steve & Jaci's home in West Jefferson. Before leaving, Jaci provided donuts & juice for everyone. We had 10 Model "A"s and 18 members make the trip to Springfield. After touring the Westcott House, we headed over to the Meadows Restaurant on Route 40 for lunch. From there we made an extra stop at the Red Brick Tavern. It is currently undergoing a complete restoration. We were turned loose to explore all three floors of the renovation project. After that, we drove over to London for an ice cream stop. The weather was perfect all day long. Thanks to Jaci & Steve for providing a morning snack and setting up such a wonderful tour for our club!

Scioto Model "A" Ford Club

An outside view of Frank Lloyd Wright's Wescott House, located in Springfield, Ohio.

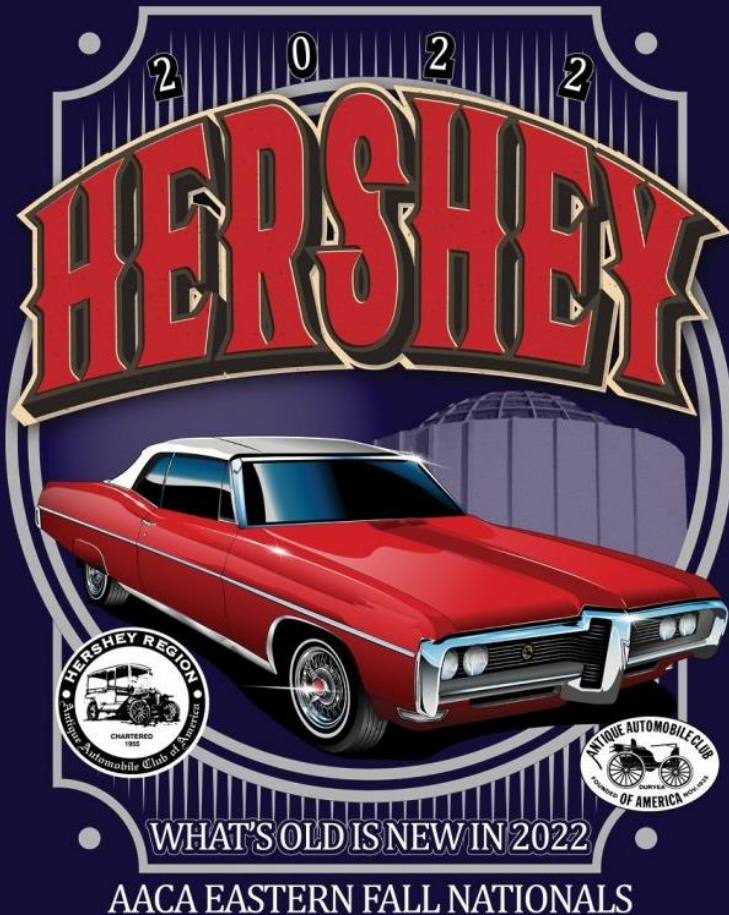

The Red Brick Tavern is located halfway between Columbus and Springfield on Route 40. It was built in 1836 as a stagecoach stop on the Old National Highway. When traveling by stagecoach, it would take one day to get there coming from Columbus or Springfield. Guests could get a drink, relax, enjoy some food and spend the night after bouncing around in a stagecoach all day.

# September Tech Meet

On September 7<sup>th</sup>, the Scioto Model "A" Ford Club held their monthly Tech Meet. We met at the Henry Street Garage in Ostrander, Ohio. The garage is owned and operated by club member Daric Galden. We had a great turnout with over 20 members in attendance. After President Rohner completed the business portion of the meeting, the 50/50 drawing was held with Spencer Cheek winning the pot. Spencer donated his winnings back to the club. The membership was provided pizza and drinks. Pat Liston provided a birthday cake for dessert. Daric did a presentation on the Burtz engine. Rick Lindner's Model "A" was on display with a recently installed Burtz engine. Daric rolled the car out and started it up so we could actually hear what it sounded like. A big "Thank You" goes out to Daric for allowing us to meet at his garage and giving us an update on the new Burtz engine. Also, a thank you goes out to Rick for providing his car with the new Burtz for us to see and hear. Our next meeting will be held at 12:00 noon on Saturday, October 1<sup>st</sup>, at Steve Rohner's garage located in West Jefferson, Ohio. This will be our annual cookout & potluck. Everyone is encouraged to bring a dish to share. We will be nominating officers for 2023 at the meeting.

All Years, Makes, and Models welcome.

## Steve Baldwin

The Member Spotlight for the Month of October is shining on Steve Baldwin. Steve and his wife Rita have been married 47 years and are the proud parents of two boys, both of whom are in the Healthcare business. Rita taught both French and Spanish at the High School level over the years. An interesting side note is that Rita used to take her students to France and Spain on school trips and Steve would go as well.

Steve was born in Long Island, New York and graduated from Muskingum College with a Bachelor of Arts Degree in Petroleum Geology and Deep Sea Exploration. While in High School, Steve became friends with an Exchange Student from Holland. Years later, this individual invited Steve and Rita to visit, which led to the Baldwin's driving all through Europe.

The majority of Steve's career was spent in the Restaurant industry, having started in college foodservice and moving on to Ponderosa and Elby's. After retirement, Steve accepted a driving position with Mid State Trucking for six years. After 51 years, Steve is FINALLY retired!

Steve is in the process of restoring a beautiful 1929 Model AA truck. He thanks several club members for helping him along with this project, including Werner Rase, Chip Stout, Rick Lindner, and many others. Having joined the club in 2018, Steve is thankful for all the knowledge he has gained.

In terms of other hobbies or interests, Steve is a volunteer at Spoom (The Society for Preservation of Old Mills) as well as the Model "A" Drivers of East Central Ohio Club.

Thanks Steve for your commitment to our hobby and the knowledge you bring to the group! We can't wait to see you tooling around in your '29 AA very soon.

## Model "A" Youth News!

This is the third installment of the Adirondack A's Youth Program. Their club is located out of Scotia, New York and was started in 2009. The first project they tackled was a Model "A" Huskster. It was completed in 2010. Their second project was a Model "A" Boat Tail Speedster. It was completed in 2012. Their third project was this 1929 Ford AA flatbed truck. They purchased the truck in a silent bid auction using funds from the sale of their Boat Tail Speedster. The truck was restored during years 2013 and 2014. They had a total of fifteen youths enrolled in the program, including three girls. Once again, they had another successful build.

Here is a picture taken at the beginning of their third project.

This is their completed project. Money from the sale of this truck will fund their next project.

## BACKYARD TECH TIP

# BATTERY POWER

Just because your headlights come on and your starter turns does not mean you have sufficient battery voltage to power the ignition. You can string flashlight batteries together and get 6 volts; will that start your A? This is where a digital volt meter and a hydrometer come in handy. A fully charged battery should read 6.32 volts with specific gravity at 1.265 in each cell. A battery at 50% charge will read 6.12 volts with a specific gravity of 1.190. And, at 6.03 volts and a specific gravity of 1.155, you only have a 25% charged battery. You need a strong battery to spin the starter, engage the Bendix and provide voltage to the coil. As the battery gets weaker, the first thing to fail is your spark. The more current you use to spin the starter, the less current you will have for the ignition.

Bruce Haynes  
Old Dominion Model "A" Ford Club

## "A" Word on Fashion

### Rolled Stockings

Stockings came to about the mid or upper thigh and had to be held up by garter clips attached to either a corset or a girdle with clips or gilt mounts. It was also common for young women who didn't like to wear girdles to "roll" their stockings down, using a ribbon or elastic garter band to just above the knee – a trick that wasn't easy to master. Young women were fixing their rolls several times a day. Flappers were known to roll their stockings to down below the knee, and just to make sure you noticed that their knees were bare, they applied a little rouge makeup to make their knees look rosy. Why? Because women were not supposed to be seen with bare legs, and this little glimpse of skin was such a Jazz Age kind of thing to do! There was a brief fad for girls to paint a picture of their boyfriend on their knee, or perhaps a favorite movie star.

Presenting  
The  
FLAPPER of the MONTH

This month we feature Edna Purviance. Edna was born in 1895 in Paradise Valley, Nevada. Edna moved in with her married sister while attending college in San Francisco in 1913. In 1915, Edna was working as a secretary when actor and director Charlie Chaplin was working on his second film, just outside of San Francisco. He was looking for a leading lady when one of his associates noticed Edna at Tate's Café in San Francisco and thought she should be cast. Edna won the role. Chaplin and Edna were romantically involved from 1915 to 1917. The romance ended suddenly when Edna read a newspaper report of Chaplin having married 16-year-old. Edna appeared in 33 Chaplin productions. Her last appearance in a Chaplin film was also her first leading role. The film was not a success and effectively ended her career. She appeared in two more films, one which Chaplin never released and a French film released in 1927. Edna married an airline pilot in 1938. They remained married until his death in 1945. Chaplin kept Edna on his payroll. She received a small monthly salary from Chaplin's film company until she got married. The payments resumed after her husband's death. Edna died of throat cancer in 1958. "How could I forget Edna?" Chaplin responded to an interviewer after her death. "She was with me when it all began."

THE END
