

The Scuttlebutt

The Official Publication of the Scioto Model "A" Ford Club

MARC Central Ohio Region
Columbus, Ohio

June 2023

Cover Photo

This month's cover photo was taken at last month's club meeting up in Galena, Ohio. It features a beautiful Ford Model AA Pickup Truck that was driven to the meeting by one of our club members.

The Chief's Corner

Hello Everyone!

At our last tech meeting, it was apparent that many of our club members are not members of MARC, the national restorers club. Since our club is an affiliate of MARC, and it is a prerequisite for all region club members to have a MARC membership, it would seem that we should be MARC members. It would allow each of us to be involved in all of their national activities, receive their great bimonthly publication, as well as ensure that our club be protected through their group liability insurance.

In order to facilitate this, there is a discounted membership plan for new (and pre 2021 renewal members) for only \$26.00 for the rest of this year. I think that it is time for our club to get serious about our MARC relationship, and promote membership. A big "THANK YOU" goes out to those who are currently members of MARC.

Looking ahead, be sure and plan to attend the June 3rd & 4th Lancaster Car Show. It is a fun, family event.

On June 7th, we will be learning about Model "A" steering issues, including how to repair and rebuild the steering column & box at Howard Turner's garage.

On June 17, we will be traveling to Springfield to visit the Clark County Heritage Center. Our guided tour will include one of the few remaining Westcott automobiles that were manufactured in Springfield. Lunch and ice cream will be at Young's Jersey Dairy in Yellow Springs. On our way home, we will drive by the historic Clifton Mills.

Don't forget to get your reservations in for the July 30th through August 4th MARC National Meet in Hamilton, Ohio. Our club has limited rooms reserved at the Staybridge Suites for \$129 per night.

Enjoy your summer miles...

5. Go west on Fredericksburg Ave.
6. Howard's place is the first house on your right.

ADDITIONAL INFORMATION:

1. Be sure to bring a chair to sit on.

The Heritage Center
CLARK COUNTY HISTORICAL SOCIETY

The Heritage Center Museum Tour

On June 17th, President Davis will be leading the Scioto Model "A" Ford Club on a tour to the Heritage Center Museum. The museum is located on Fountain Avenue in Springfield, Ohio. We will be meeting at 9:00 a.m. in the parking lot of the Der Dutchman Restaurant located at 445 Jefferson Avenue in Plain City, Ohio. The Heritage Center is a 56,000 square foot building that was constructed in 1890. It was originally Springfield's City Hall and Marketplace, and held city offices, a council chamber, an opera house, and a farmers' market. It is now listed on the National Register of Historic Sites. The building currently houses over 13,000 square feet of permanent exhibits in the museum, a public library & archives, the Clark County Historical Society's historic collection and administrative offices, as well as meeting and rental facilities. After touring the museum, President Davis will continue the tour by leading us to Yellow Springs, Ohio for lunch and desert at Young's Jersey Dairy. On the way back home, we will go by the historic Clifton Mills. This is a well-rounded tour and should have a little something for everyone to enjoy. Be sure to mark your calendar and plan to join the tour!

We Have New Members!!!

I would like to welcome our newest members to the club, Rodney & Kim McNinch. They live up in Delaware, Ohio. Rodney & Kim drive a 1929 Ford Model "A" Tudor Sedan. We all look forward to meeting you and seeing your Model "A" at one of our upcoming tours or events! Welcome aboard!

FROM THE DESK OF

Pat Liston

SECRETARY

May Secretary's Report

We had our Tech Meeting on May 3rd; Kathy Bickley supplied a sloppy Joe luncheon, which went well. We had about 30 people come to our meeting including a couple of visitors. Our President, Wayne Davis got our attention to get the meeting started and thanked Dan and Kathy for allowing us to use their garage for the meeting.

He went on to explain that Dave Kauffman had agreed at our last meeting to be our Regional MARC representative. So, we are looking forward to seeing his articles in the MARC Magazine. Then he asked if any visitors or new members were attending our meeting. There were and they were introduced to the group. He then explained how well our Tune-Up Days went and how well they ran with the different teams he had scheduled to get things done. He thanked all the volunteer teams for a job well done.

Treasurer Cheek was not able to attend our meeting so Pat Liston went over the monthly report for the group. Kathy Bickley reported on the passing of Pat Liston's brother. Other than that, she did not have any other Sunshine news.

The Secretary, Pat Liston, thanked all that had sent sympathy cards and for the card from the club. Then she announced the winning members of the MARC Mileage Awards. Bill Minor had 5,000 miles for his 1930 Coupe; Shirley Doherty had 40,000 miles for her 1931 Roadster, and Dan Whiteley had 30,000 miles for his Tudor Sedan. She then read a thank you email from Shirly Doherty for all the help that was given to her son-in-law at the April Tune-Up. She expressed how Thankful he was and that he learned a great deal and felt comfortable with the group. So, maybe we will see more of him throughout the year.

President Davis then went over the upcoming events for May. We have a tour of the Motts Military Museum being lead by Bill Minor on May 27th. We will be meeting at the museum at 9:00 a.m. The tour will begin at 9:30 a.m. The museum is located at 5075 Hamilton Road in Groveport, Ohio. We also have been invited to the Worthington Memorial Day Parade. So far, we have about 12 people and 7 cars going. This will be the first outing for Dave and Mary Lou in their Blind Date Car from school days way back when.

President Davis then asked how many were planning to go to the MARC Meet in West Chester, Ohio this summer and how many planned to help at the MARC Meet in 2024. No one wanted to raise their hand. He explained that we need people to help with the Back Roads Buggy Tour and 50/50 raffles. This led to a discussion about why we should all be members of MARC. He also explained that if we were all MARC members, our club would be covered by liability insurance through MARC, should anything happen to us while on a club tour. We then had a lengthy discussion of the pros and cons. He explained that this is not individual insurance,

but coverage to protect our CLUB in the event that we get sued for causing an accident. Should that happen, our club could fold, because each member of the club would be responsible for a portion of what we could be sued for. There was a motion made to investigate changing the membership by-laws to require all members to also belong to MARC. There will be an announcement coming out about it and there will be a meeting of the trustees to discuss this change. There will be more to come on this subject.

President Davis then went into the topic of the evening, “Touring Tips and Guidelines.” He said that last year was the first time he had ever organized a tour. He was surprised that there were no written tips or guidelines to help him know what was needed for planning a tour. He passed out a guide he had created and went over each item. There were items listed that must be considered for the planning, tour directions, and the tour itself. Most were straight-forward, some were reminders that needed to be emphasized. There were other items you may not necessarily have thought of, but need to consider. For example, how bad it could be if you had to do a U-Turn on a large highway. Also, what you would do if there was an accident along the way? He explained how important it is to know the cell phone number of the person in front of you, and how important it is to be responsible for the person behind you. He explained that we need to have a plan for a breakdown, or if someone gets caught by a light and is not able to catch up with the group. The person in front of them should pull over, wait for them to catch up, and call ahead to the leader or someone on the tour so they can let the leader know to find a place along the road or a parking place where they can stop to allow everyone to catch back up. He then asked the group to send him or Pat any additional items that they may not have already gone over that should be included. Pat will retype the Guide and have it available at a later meeting. We might just put a copy in our next roster as well. We will more than likely not have a new one till 2024.

Our tour of the Motts Military Museum and Dave & Mary Lou’s Memorial Day Parade has not happened yet as I am writing these minutes, so I will have to include that in our next newsletter. Allan needs our articles so he can get your newsletter to you promptly.

Have a great day!

Did you know that the Scioto Model “A” Club has a Facebook page? It is a closed group, so only our members may view the page. If you would like to see what’s going on, just log on to Facebook and go to the Scioto Model A Club. Once there, click on “Join the Group”. After the moderator of our group approves your membership, Facebook sends you a notification of the approval and group posts immediately begin to appear in your news feed.

During the twenties, the popular tubular look, known as the flapper, dominated much of the decade. Though this was one of the more popular styles, it was by no means the only. In fact, a style popularized by Jeanne Lanvin could not be further from this “androgynous” look. Instead, these dresses had long, full skirts, sometimes even with panniers, like this black and silver “Robe de Style” dress shown here (fig. 1). They were feminine and romantic, like the pastel dress designed by Lanvin in 1922, accessorized with a straw hat itself removed from the brimless cloche hats that were popular during the twenties (Fig. 2). Lanvin’s dresses were starkly different from the shapeless silhouettes of the flapper, though some interpreted this style with their own feminine twist (Fig. 3).

MAFFI Newsletter Minute

Planning for MAFFI Model “A” Days 2023 is nearing completion. Of course, there will be a swap meet, seminars, memorabilia sales, rides, Model “A” driving classes, and a dinner tour. Hotel rooms have been blocked for our guests. It will be a mix of the old and proven, with a few new twists. September 15th & 16th are the days. Visit the MAFFI or Gilmore web pages, register, and make your reservations.

For those who have attended before, Model “A” Days at Hickory Corners is a wonderful ending to the summer season and beginning of the fall season. It is a chance to see and touch some wonderful old cars, to see what has been changed or added to the museum. There are few places like the Gilmore complex. You can sit in the shade of a maple tree and eat a sandwich and ice cream purchased from a diner converted from an old-time streetcar. While doing this you can talk with friends and look at the vintage cars. “Huff & Puff”, the Model AA school bus, will be giving rides. The theme this year will be open cars, so look for a phaeton or roadster to be giving rides around the campus. Finally, the AA stake bed truck should be moving the remainder of the passengers around the streets.

This is a great chance to visit with a large group of fellow Model A’ers, one last time before the seasons force us to choose to move most of our activities indoors.

If you are one of the many Model “A” Club members who will not be able to attend our event, remember, September 16th is a Saturday. Use the day to have your own local Model “A” Day celebration with a tour, picnic, or both, with your club. A joint tour with a neighboring club might be exciting too!

Happy Motoring!

Model "A" Youth News!

This month's Youth News is a little personal for me. Below are a couple of pictures taken on Easter Sunday, about nine years apart. It features my twin granddaughters, Emma & Katelyn Goldhardt. The first one is from 2014 and the second one was taken this year. If you have some pictures of your Model "A" and the kids or grandkids that you would like to share, send them to me at: www.TheModelAClub.org

NATIONAL EVENTS

THE MARC NATIONAL MEET
JULY 30TH-AUG. 4TH, 2023
HAMILTON, OHIO

**"SO..GRAB "A" COMPANION &
MEET US IN HAMILTON**

HOSTED BY
THE HAMILTON A'S REGION

MAKE YOUR RESERVATIONS NOW!

The Scioto Model "A" Ford Club is going to the MARC National Meet this year! This is your chance to see hundreds of Model "A"s at one time! Since the National Meet is being held less than 100 miles south of Columbus, we want our club well represented and have as many of our members participate as possible. The Meet will be held from Sunday, July 30th, through Friday, August 4th. See the schedule of activities below. If you wish to go, you must be a member of MARC, but you do not have to own or drive a Model "A" to the Meet. You can go for as many or as few days as you want. You can download the Meet registration form at the MARC website. Since the host hotel is sold out, our club has reserved a block of rooms for a special price at the Staybridge Suites Hotel located at 8955 Lakota Drive, West Chester, Ohio. Each suite includes a Queen-size bed, pull-out, full kitchen, breakfast buffet, indoor pool, and fitness center. Rooms are \$129.99 plus tax. To reserve a room, call 513-874-1900 and be sure to tell them you are with the Scioto Model "A" Ford Club. **The cut-off date to reserve a room is June 23rd**, so call today and reserve your room!

7:00PM- 10:00PM AWARDS BANQUET BUFFET

MILITARY MUSEUM TOUR

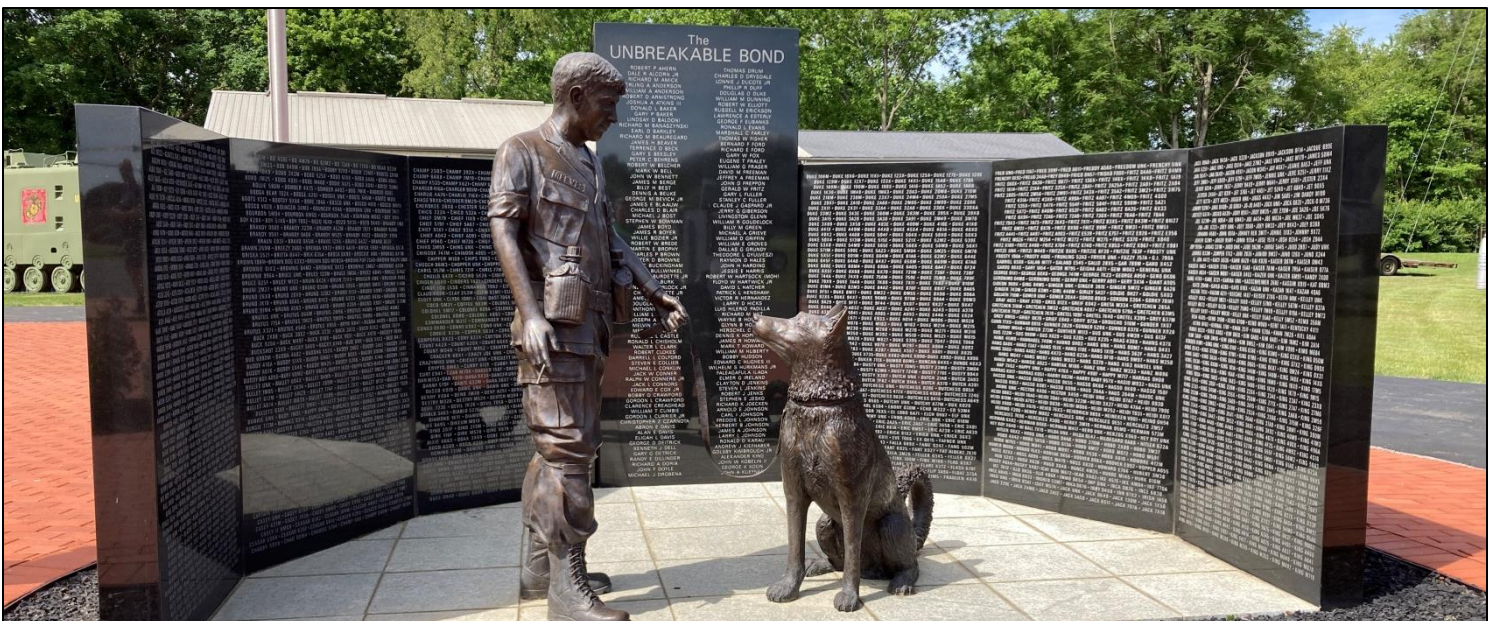

On May 27th, the Scioto Model "A" Ford Club took a tour of Mott's Military Museum in Groveport, Ohio. The day's activities were put together by Bill & Winnie Minor. We met at the museum at 9:00 a.m. Our tour guide for the day was Dave Gerhardt. Dave led us throughout the museum explaining things and answering our questions for over two hours. If you have never been there, you must go! What started out as a small, private collection turned into a museum with thousands of items on display. They have everything from a lock of George Washington's hair to a crushed FDNY firetruck from 9/11. They feature items from the Revolutionary War through Desert Storm. They also have items from NASA. The best part of the day for me was hearing stories from our members who are veterans. They would see an item that reminded them of their days in the military. Then they would tell a story or talk about their personal experiences. After the museum tour, we headed over to Little Italy for lunch. The service and food was great. After dinner, some of us grabbed some ice cream to round off the day. We had nine Model "A"s, a Ford Jeep, and 22 people on the tour. The weather was also perfect. This was an A+ tour all the way around. Thank you Bill & Winnie for a perfect tour!

Our Tour Guide leading us through the museum.

The Higgins Boat Display.

The Vietnam War Dog Team Memorial features 4,244 dog's names. The granite is from the same quarry "The Wall" is from.

9/11 FDNY fire truck exhibit.

Lunch time at Little Italy in Groveport, Ohio.

Veteran Dan Bickley beside a helicopter similar to what he served in during the war.

BACKYARD TECH TIP

WATER WETTER, SHOULD YOU USE IT?

What is WaterWetter? WaterWetter is an American made coolant additive. It is produced by Red Line Synthetic Oil. Originally designed for racing applications, WaterWetter was created specifically to reduce strain on the cooling system allowing for more reliable performance. Now, that same technology is also available for use in everyday applications.

What does it do? They claim that it will lower your coolant temperatures by as much as 20 degrees Fahrenheit, while simultaneously protecting against harmful rust and corrosion.

How do you use it? Simply wait for your car to cool down, remove the radiator cap and pour in the appropriate amount.

How does it work? It lowers the surface tension of the coolant, which acts to lower the engine coolant temperatures. This allows for greater heat transfer from the engine's metal components to the coolant, reducing the chances of overheating and the formation of unwelcome cylinder head hot spots. In addition to its increased cooling abilities, they claim that it also protects vital components from corrosion.

When it comes to heat transfer, water is far more effective than antifreeze. The problem with water is the boiling point -- 212 degrees. Antifreeze has a much higher boiling point, but is not as effective when it comes to cooling. So, what's the trade-off? A 50/50 mix of antifreeze and water gives the best possible alternative for cooling efficiency and boiling point.

So why add WaterWetter? One reason is because of the surface tension in the water/antifreeze mix. Surface tension causes the water mix to lose contact with the metal of the engine and the metal of the radiator, reducing heat transfer. WaterWetter substantially reduces the surface tension of the water and causes it to adhere better to the metal surfaces while flowing through the passages, thereby increasing the heat transfer capabilities both in the engine to absorb more heat and in the radiator to release more heat.

Does it really work? Many people online claim that it has reduced their temperatures anywhere from 5 to 20 degrees Fahrenheit. Out of a maximum of 5 stars, it has a 4.6 star rating on Amazon with over 2,500 reviews. That's pretty impressive.

Bottom Line... It appears that WaterWetter will lower your coolant temperature a little bit. How much depends on who you ask. Should you use it? Like most things Model "A" related, if you ask ten people a question, you will get ten different opinions. But there is one thing that everyone does agree on; it will not fix a faulty cooling system. You must invest a little time and take care of your cooling system. You need to occasionally flush it out to remove what corrosion you can and make sure that it is not getting plugged up. Also, if you run straight water in your system, do not forget to drain it in the winter! Now, it's time for you to make the decision. My suggestion would be, if it helps you sleep better at night, go ahead and use it!

May Tech Meet

Editor
Scioto Model "A" Ford Club

On the third of last month, the club held their monthly meeting. We met at Dan & Kathy Bickley's garage in Galena, Ohio. There was a great turn-out with over thirty people in attendance. Kathy had plenty of food prepared for everyone. President Davis led a lengthy discussion with the membership about the benefits of being a member of MARC. It was noted that when the Scioto Model "A" Ford Club was formed, the club bylaws required all members to belong to the MARC organization. The membership discussed possibly changing our bylaws to once again make that a requirement. President Davis then distributed a hand-out with a list of touring guidelines. Thank you, Dan & Kathy, for hosting our meeting! Our next meeting will be held on June 7th at 7:00 p.m. at Howard Turner's garage. His garage is located at 4191 Fredericksburg Avenue in Columbus.

Memorial Day Parade

The Scioto Model "A" Ford Club has decided to do "Pop-Up" events this year. These will be non-points events that our members decide to do throughout the touring season. Since many of these may come up at the last minute, they may not appear on our schedule. If a member wishes to do a "Pop-Up" event, they are asked to contact Secretary Liston and she will send out an email with the information for the event. Our first "Pop-Up" of the year was the Worthington Memorial Day Parade. We knew about this in advance, so we were able to list it on our schedule. Dave & Mary Lou Gearhart organized this event for our membership. On May 29th, we met in Worthington. We then headed over to the parade line-up area as a group. We had nine Model "A"s and 14 members participate in the parade. After the parade, some of our members enjoyed lunch at the Everest Cuisine Restaurant followed up with some Greater's Ice Cream for desert. This was a very nice parade and a great way for our club to honor our veterans. Thank you, Dave & Mary Lou, for organizing our first "Pop-Up" of the season!

Presenting

The

FLAPPER of the MONTH

This month we feature Jobyna Ralston. Jobyna was born in 1899 in Tennessee. In 1919, after a failed teenage marriage to a local farmer, Jobyna went to New York to join a dancing academy. In 1920, she appeared on screen in comedy shorts made in Jacksonville, Florida. At 21, she made her one Broadway appearance. Comedian Max Linder saw her on stage and persuaded her to go to Hollywood, where she appeared in a number of his films. She also co-starred in a short film that was the debut film of the Marx Brothers. Soon, director Hal Roach began to feature her in one-reel comedies. In 1923, Harold Lloyd became aware of her talent and picked her to be his leading lady. By that time, Jobyna had already been in 60 one-reel comedy shorts for Hal Roach. Over the next five years, she appeared in six of Lloyd's feature films. She made just three talkies in her career. The New York Times declared that "Miss Ralston's utterances are frequently indistinct". Jobyna did have a noticeable lisp, which combined with her impending pregnancy, effectively put an end to her career as a motion picture actress. During the last five years of her life, Ralston suffered from rheumatism and had a series of strokes. She died in 1967 from pneumonia at the Motion Picture Country Home in Woodland Hills, California. She was 67 years old.

THE END
