This month's cover photo features two things that we all love, our Model "A"s and our American Flag.

Happy Independence Day!

The Chief's Corner

Hello Everyone!

Summer is finally here and we're rolling. Our club just finished a 95+ mile tour to the Springfield / Yellow Springs area and now we are looking forward to our July 15th Plain City Farm Festival tour. I would like to recognize two members who dared to drive their unproven cars on their first tours, Mike Dunbar and Dave & Mary Lou Gearhart. They set aside their fears of the unknown and braved their first "long" outing. All went well, 40mph, no breakdowns, and confidence was built. This is what our club is all about, driving and getting comfortable with your car and knowing that you are surrounded by friends who will support you. We now have two graduates from "owner class" to "touring class". Congratulations!

Are there any other fearful members out there that might want to join our next tour?

The Steam Threshers Tour

On July 15th, Dick Liston has made arrangements for the Scioto Model "A" Ford Club to attend the 73rd Annual Miami Valley Steam Threshers Show. The show is held in Pastime Park in Plain City, Ohio. We are to be at the park between 9:30 a.m. - 10:00 a.m. You must enter through the main front gate of the park located at 370 N. Chillicothe Street in your Model "A". You will get in free if there are one or two people in your "A", but if there are 3 or more, they will ask you to pay a \$10 admission fee. They have a specific area set aside for us to display our Model "A"s. If you have never been to the show, there is a lot to see and do. This is a four day show that features steam engines, tractors, numerous vendors, and concession stands. After spending a day at the show, we plan to leave around 4:30 p.m. and head over to the Der Dutchman for a great meal. This show has all types of entertainment, including a truck & tractor pull. For more information and a schedule of events, go to: mvsteam.com

Be sure to mark your calendar and plan to join us on the 15th for the Miami Valley Steam Threshers Show!

Our Next Meeting

- DATE:** July 5th, 2023
TIME: 7:00 p.m.
PLACE: Dick Liston's Garage
LOCATION: 751 South State Route 605
Sunbury, Ohio
TOPIC: Welding
DIRECTIONS:
1. Take I-270 around to the north east side of Columbus.
 2. Take the St. Rt. 161 East Exit.
 3. Go east on State Route 161 to Exit 45 - New Albany Road.
 4. Go north on New Albany Road to New Albany Road East.
 5. Take New Albany Road East to St. Rt. 605.
 6. Go north on St. Rt. 605 for about 7.2 miles.
 7. Dick Liston's Garage will be back a lane on the east side of St. Rt. 605.
- ADDITIONAL INFORMATION:**
1. Be sure to bring a chair to sit on.

We Have New Members!!!

I would like to welcome our newest members to the club, Larry & Christine McDonald. Larry & Christine live in Westerville, Ohio and have a 1929 Tudor Sedan. Some of us got to meet them and see their beautiful Model "A" at the Worthington Memorial Day Parade. All of us look forward to seeing both of you at one of our upcoming tours or tech meets! Welcome aboard!

FROM THE DESK OF

Pat Liston

SECRETARY

June Secretary's Report

Our Tech Meeting on June 7th was a real hit. Bill Minor, Martin Fitch, and Howard Turner had a good presentation on Model "A" Steering boxes. There were a lot of questions as well. Howard supplied pizza for the evening and some soft drinks. We had about 18 people who came to our meeting, including our new member, John Cleghorn. Our President, Wayne Davis, got our attention to get the meeting started and thanked Howard & Judy Turner for allowing us to use their garage for the meeting.

He went on to thank everyone who attended the Motts Military Museum Tour back on May 27th. He asked if anyone had been there before, and what they thought of the place. Everyone agreed they had no idea there was that much to be displayed. The museum was a lot larger than they thought it would be. It had a lot of artifacts from wars before WWI through the Korean War. He also thanked those who attended the Worthington Memorial Day Parade where Model "A" Amy made her debut for the Gearhart's. He explained how nice the parade was and that he had not seen that many people supporting a parade and our veterans in quite a while.

Treasurer Cheek was not able to attend our meeting, so President Davis went over the monthly report for the group.

There was no Sunshine Report.

Our Secretary, Pat Liston, did not have anything to add to the minutes. Everyone had just read them in the Scuttlebutt a few days before. However, she did pass out new name badges for the Cleghorn's.

President Davis then went over the upcoming events for June and July. We have a Tour of the Springfield Heritage Museum scheduled for June 17th. On July 5th, we have a Tech Meeting at Dick Liston's Garage. The topic will be welding. Dick Liston also has prepared a tour of the Miami Valley Steam Thrashers' Show on July 15th. He asked that everyone come to the fairgrounds on their own, and we should all be there between 9:00 a.m. and 9:30 a.m. They will be directing us to where we are to set up. He reminded us to bring our chairs and a tent for shade if we chose to do so.

President Davis then asked how many members planned to go to the MARC Meet in West Chester, Ohio this summer and how many planned to join the MARC Meet in 2024. There was a show of hands, and it seems only about 5 of those present were going. This led to a discussion about why we should all be members of MARC. He also explained about the great newsletter you receive being a MARC member, as well as a few of the other benefits. One of our older club members, Rick Lindner, explained that back in the 60's, the club bylaws required all of our members to belong to MARC. He didn't remember when or why it was changed. He did say that

it has not been a requirement for quite a while. Back then it cost \$5.00 to belong to MARC and now it cost \$50 to be a MARC member. Some of our club members did not want to pay for both. Wayne explained that our Vice President was responsible for bringing the trustees together to discuss the issue. Whatever they recommend to the membership, the membership will still have to vote on it in order for it to become effective. Since Vice President Jones is on vacation in Texas, we will need to wait for his return before we can move forward with the subject.

He then turned the meeting over to Bill, Martin, and Howard, who as I stated earlier, did a great job of explaining how the Model "A" steering box works.

Our tour to the Springfield Heritage Museum started at the Der Dutchman in Plain City at 9:00 a.m. on June 17th. We had a very lovely day for our trip. We had seven cars and about a dozen members attending. The roads were lovely and the scenery was nice. We learned a lot about the city of Springfield. Then we were off to Young's Jersey Dairy for lunch and ice cream. There were long lines, but good food and good ice cream.

We then drove over to Clifton Mills to check it out. I understand that they light it up at Christmas time and it is a site that needs to be seen. We will have to come back for that. Maybe we could do a modern car pop-up tour if enough members are interested. The mill was very interesting to visit, but we could not stay very long as it was getting time to head home for the day. Thank you, Wayne, for another great tour. You always have interesting places to visit. Great Job!

Did anyone go to the Waco Fly-In in Mt. Vernon on June 24th?

Have a great day!

Did you know that the Scioto Model "A" Club has a Facebook page? It is a closed group, so only our members may view the page. If you would like to see what's going on, just log on to Facebook and go to the Scioto Model A Club. Once there, click on "Join the Group". After the moderator of our group approves your membership, Facebook sends you a notification of the approval and group posts immediately begin to appear in your news feed.

Model "A" Youth News!

Editor
Scioto Model "A" Ford Club

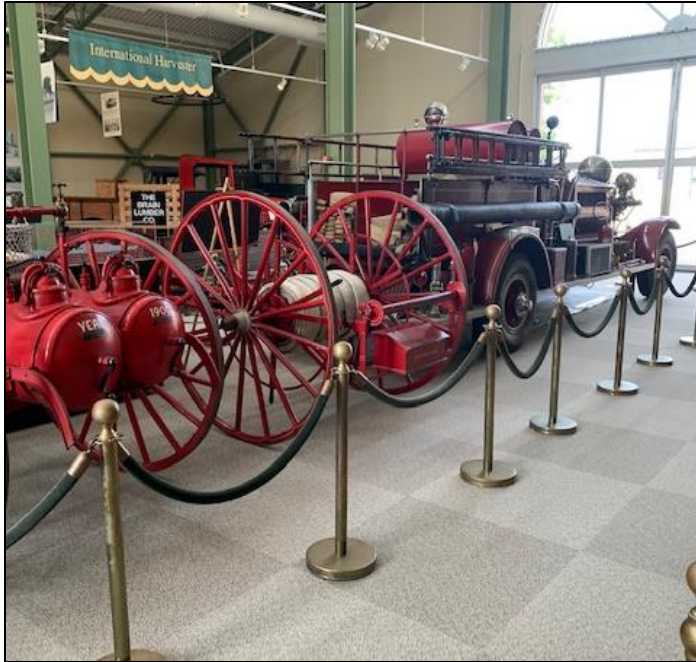

What is Hubley racing? In the MARC magazine, Hubley racing is part of every scheduled national meet. I finally looked it up online to see what is going on. Hubley was a manufacturing company that introduced a line of cast iron toys in 1909. By 1960, Hubley was producing 1:20 scale metal car kits, instead of the typical plastic model car kits. They offered a line of Model "A" kits at that time. It appears that some MARC members are buying up these old cars and racing them on a track similar to what the Boy Scouts use for their "Pinewood Derby" races. From the pictures I saw, it looks like the kids really enjoy playing with them, that is, when the adults get done playing.

The Heritage Center Museum Tour

On June 17th, President Davis led the Scioto Model "A" Ford Club on a tour to the Heritage Center Museum in Springfield, Ohio. There were a total of seven Model "A"'s and a dozen club members take part on the tour. After touring the museum, President Davis led the group to Yellow Springs, Ohio for lunch and desert at Young's Jersey Dairy. After lunch, one more stop was made to check out Clifton Mills. A big Thank You goes out to our President, Wayne Davis, for putting together this wonderful tour!

“A” Word on Fashion

Another trend for women that enjoyed massive popularity in the twenties was that of sportswear worn as daywear. Sportswear had long been an acceptable form of casual wear for men, but in the 1920s, it also became acceptable for women. The popularity of sports clothes in the 1920s is often attributed, like many of the most popular styles of the twenties, to Coco Chanel, but designers such as Jane Regny and Jean Patou also contributed to the sportswear trend. Patou's yellow skirt and sweater set show how much tennis clothes influenced design. Tennis was the most popular sport for women and thus the most popular inspiration for fashion. Indeed, one of the most popular fashion stars of the early twenties was tennis star Suzanne Lenglen whose short sleeved, pleated tennis dress and bandeau were created for her by Patou. Her style both on and off the court inspired the masses. Shrimpton writes, “By the late 1920s, following her lead and embracing wider fashion trends, sleeveless, knee-length shift-like tennis dresses were fashionable”. So popular were elements of these sports clothes that in a 1928 issue of *The Tatler*, M.E. Brooke wrote, “Sports clothes have been developed to such an extent that they may go to lunch at the fashionable restaurants; as a matter of fact they are often worn until the hour of cocktail”.

NATIONAL EVENTS

THE MARC NATIONAL MEET
JULY 30TH-AUG. 4TH, 2023
HAMILTON, OHIO

**"SO..GRAB "A" COMPANION &
MEET US IN HAMILTON**

HOSTED BY
THE HAMILTON A'S REGION

MAKE YOUR RESERVATIONS NOW!

The Scioto Model "A" Ford Club is going to the MARC National Meet this year! This is your chance to see hundreds of Model "A"s at one time! Since the National Meet is being held less than 100 miles south of Columbus, we want our club well represented and have as many of our members participate as possible. The Meet will be held from Sunday, July 30th, through Friday, August 4th. See the schedule of activities below. If you wish to go, you must be a member of MARC, but you do not have to own or drive a Model "A" to the Meet. You can go for as many or as few days as you want. You can download the Meet registration form at the MARC website. Even though the host hotel is sold out, other hotels in the area still have rooms available. See the MARC website for a listing of hotels within the area.

BACKYARD TECH TIP

DOES YOUR RADIATOR SPEW?

The most common reason for a Model "A" to spew water out of the radiator is caused by over filling the radiator. Only add enough fluid to cover the core. It is not actually over heating; it is just spewing out the excess water. If the radiator is not overfilled and is overheating, check for low coolant, a loose fan belt, debris in the radiator fins or a stuck thermostat. A bad water pump will usually squeak or leak. The fan belt should have ½" of flex at the mid-point; no more, or less. The Model "A" does not have a pressurized cooling system; normal operation will cause the coolant to evaporate. Check the coolant level every time you gas up.

Old Dominion Model "A" Ford Club

MAFFI Newsletter Minute

Not everything at the Hickory Corners Model "A" Museum is about preparing for Model "A" Days. During the second week of May, a crew consisting of MAFFI Trustees and volunteers worked hard for four days moving and parking Model "A"s around the Gilmore complex and the local area for multiple photos. During that time, Model "A"s were carefully removed from the museum building and the "C Barn" to be positioned around the Gilmore campus. Additionally, some of the cars were taken off-site and parked at other country setting locations that included a hops farm, an old church, and a lake. At the end of each day the cars were returned to their homes only to be taken out the following morning to repeat the process.

While the MAFFI Trustees and volunteers were doing this, a photographer, John Lacko, from Hemmings Motor News, was taking pictures. By all accounts there were probably more than 2500 pictures taken.

This flurry of activity was for the purpose of helping Hemmings Motor News create their Model "A" calendars for 2024 and 2025. These calendars will be on sale in October of this year and next year. They will be available through Hemmings Motor News. This calendar, dedicated to Model "A"s, is one of 8 different calendars that Hemmings Motor News sells each year.

Happy Motoring!

June Tech Meet

Editor
Scioto Model "A" Ford Club

On the seventh of last month, the club held their monthly meeting. We met at Howard & Judy Turner's garage. There were around 18 members present for the meeting. Howard & Judy had pizza and drinks for everyone. After the business portion of the meeting, the tech session began. The topic was the Model "A" steering box. The seminar was conducted by Bill Minor, Howard Turner, and Martin Fitch. It was a very good and informative session for the members. Thank you, Howard & Judy, for hosting our meeting. Our next meeting will be held on July 5th at Dick Liston's garage located at 751 South State Route 605 in Sunbury, Ohio. The topic will be welding.

Presenting

The

FLAPPER of the MONTH

This month we feature Billie Dove. Billie Dove was born Lillian Bohny in New York City in 1903. By 15, she was helping to support the family by working as a model. She could neither sing nor dance all that well, but her stunning beauty got her hired by Ziegfeld Jr. to appear in his famous Follies. A burgeoning affair between Dove and Ziegfeld prompted Ziegfeld's wife to arrange work for the young starlet in Hollywood. She made her first film in 1921. She was immediately put into a starring role in only her second picture. From there, Billie went on to appear opposite some of Hollywood's most popular leading men including Douglas Fairbanks, Lon Chaney, and Tom Mix. She married in 1923, but it ended in divorce in 1929. Billie was still at the peak of her popularity with the advent of sound. Howard Hughes became an obsessed admirer, which resulted in a three-year affair. Hughes actually proposed to the star and they were briefly engaged. She abruptly ended the relationship, however, when she was unable to handle his quirkiness. She retired in 1935 and got married for the second time to an oil executive. They were married for 35 years, until his death in 1970. She was married one more time, but it ended in divorce. She lived out her life in Woodland Hills, California, where she died of pneumonia in 1997 at the age of 94.

THE END
